

FEATURES

- Fits access floors with 5” clearance from finished floor level
- Manufactured with 0.0625 inch galvanized steel
- Capacity for up to four duplex power receptacles
- Capacity for up to two data plates for up to 12 data ports
- Thermoplastic cover includes two integrated cable exits and carpet insert area or optional filler piece
- Optional powder-coated steel cover
- Locking tabs easily actuated to secure AFM to floor tile
- Factory-assembled and pre-wired with ACS modular wiring system
- IBEW-assembled, UL-listed and labeled

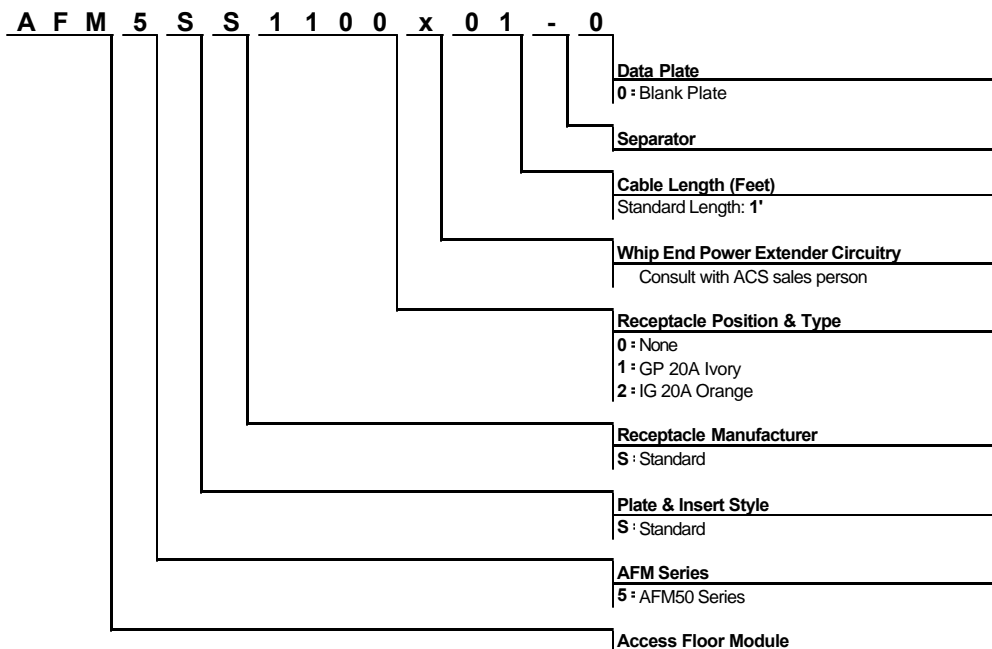

APPLICATION

The **AFM50 Access Floor Module** contains the user interface to power and telecommunications wiring that is distributed below a raised floor. Easily integrated into the Intelligent Floor system, the AFM50 can be equipped with both General Purpose (GP) power and Isolated Ground (IG) power receptacles, as well as industry standard telecommunications connectors from most vendors. The AFM50 is typically supplied factory assembled and pre-wired with a Whip End Power Extender Cable. Custom circuitry configurations and cover colors are available.
